

LoRaWAN Asset Monitoring Terminal

F-LT300

Introduction

F-LT300 is an Asset Monitoring Terminal that supports the LoRaWAN™ standard. This product is based on a three-axis accelerometer to monitor the vibration of items in the storage environment and realizes the wireless alarm function through LoRa technology. The product can be used in security systems, mainly for the monitoring of valuables in places such as smart warehousing, smart construction sites, sauce and wine digital platforms, smart oil fields, and smart factories.

Industrial-grade Design

- ▶ Protection level: waterproof, dustproof
- ▶ Low power consumption design
- ▶ Long battery life (5-6 years)

Stability & Reliability

- ▶ Battery powered; no wiring required
- ▶ Wireless transmission, convenient for networking
- ▶ Reliable transmission, strong floor penetration

Standard & Convenience

- ▶ Support LoRaWAN™ standard, system application can be expanded
- ▶ Working frequency: 868-915MHz
- ▶ Easy to install, 3M glue paste

High Performance

- ▶ Three-axis acceleration detection, high accuracy
- ▶ Multi-level sensor sensitivity can be set
- ▶ With anti-dismantling, vibration, tilt, displacement alarm
- ▶ Regular self-check and report power and equipment status

LoRaWAN Asset Monitoring Terminal F-LT300

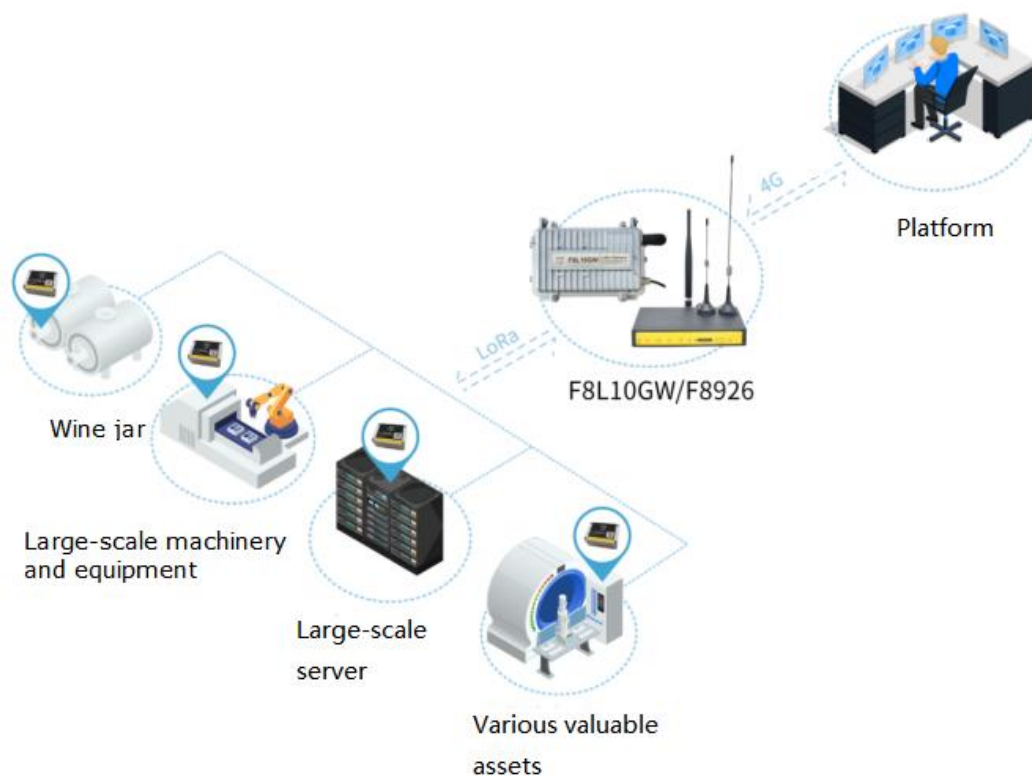

Product Specification

LoRa Parameters	
Items	Contents
Band	470-510 MHz, 850-935 MHz
LoRa Protocol	LoRa, LoRaWAN®
Transmit Power	13 dBm (MAX 20dBm)
Floor Penetration Ability	2-3 floor (13 dBm)
Sensitivity	-142dBm@SF12
Power Consumption	
Items	Contents
Deep Sleep Current	< 22uA
Send Data: Current	Heartbeat: 45mA @13dBm Alarm: 80mA @13dBm
Receive Data Current	5.6mA
Over-discharge Protection Voltage	≤3.0V
Voltage Undervoltage Prompt	≤3.3V
Physical Properties	
Items	Contents
Dimensions	83 x 58 x 34mm (Excluding antenna and mounting parts)
Battery Working Life	More than 5 years (2.6Ah data twice a day)
Others	
Items	Contents
Operating Temperature	-10~+55°C (14~+131°F)
Relative Humidity	10% - 95% (non-condensing)

LoRaWAN Asset Monitoring Terminal F-LT300

Topology

Order Information

Products	Frequency
F-LT300-L	470-510 MHz
F-LT300-H	850-935 MHz
